that build confidence

From the classroom to the dorm room, living and learning together shapes the Gordon experience—and ultimately shapes you. **Imagine how you'll grow** from banding together with an honors cohort for four years, trekking through the Adirondack wilderness on a La Vida expedition, working with a human rights organization in Croatia, making art in an ancient convent in the Italian countryside, volunteering with a local homeless or tutoring ministry, rallying on the quad for a snowball fight or joining Fighting Scots nation as an athlete or superfan.

“The liberal arts education [at Gordon] gave me such an excellent foundation to venture out into the world and not be afraid, just be ready to dip my hand into anything that came my way.”
